**Subject:** Hidden Treasure Large Mine Amendment  
**CC:** "O Jay Gatten" <ojgatten@nae-xploration.com>, <macvp@scinternet.net>, ...

---

Tom:

I talked with Doug Jensen about completing the permit. Doug and I decided to leave the SXEW and the copper cementation plant out of the amendment until we actually know it is going to happen and we have sufficient data and drawings to get this into the permit. At this time, the amendment should include the following:

1. Enlargement of the Hidden Treasure Pit
2. Adjustment to the width of the haul roads.
3. The water system to include the two new wells, pipelines and water tanks.
4. The addition of the thickener tanks west of the mill building; the addition of the mill office building and the addition to the lab building.
5. The enlargement of the small area north of the mill where all the additional equipment is stored.
6. The area where the tailings pond is situated.
7. The 6.1 acres on SITLA lands used as an ore storage and transfer point.

As we discussed this morning, WUCC is requesting that you grant us an additional two weeks until March 15<sup>th</sup>, 2010 to get this amendment into your hands.

Thank you.

Ron
